GERMANY HAS SURRENDERED UNCONDITIONALLY

News Received Here This
Afternoon at 4 O'clock
Says City Dailies Has
Telegram Huns Have
Quit the Fight

At 4 o'clock this afternoon a telephone communication from Chelunant to a friend in this city said that the news given out by the Hearst News-paper Syndicate in New York was to the effect that Germany had surrendered unconditionally and that the war was over. He also said that the Chelunant afternoon dailies were carrying this special in an extra edition.

PEACE BE WITH YOU ALWAYS

M. C. Russell Co. received today 24,000 cans of 2 1/2 California Tomatoes. This is the first time that California tomatoes have been sold in this section. They come from the land of sunshine packed by the great Tuna Fish man, C. E. Van Landingham, and are certainly fine with purple from tomato trimmings. One thing sure Russell sees through trade, gets everything on the market.

COMPLETE

Line of Columbia Machines, and full line of Records. Truthful statements and liberal terms guaranteed.
CLOONEY, Jeweler, Columbia Dealer.

The funeral of Mrs. Susan Rains, whose death occurred at her home in Aberdeen yesterday afternoon, will take place Friday, with burial in Charter Oak cemetery. Mrs. Rains was 83 years old and is survived by six children, Messrs. Harry and Williams Rains and Misses Clara, Maud, Hattie and Elizabeth Rains.

Mrs. Ann Case of East Second street is improving from a slight case of influenza.

Fresh Baltimore Oysters received daily.

RED FLAG IS HOISTED OVER GERMAN SHIPS

Revolutionists Take Charge of the
Whole German High Seas Fleet
at Kiel—Troops Driven Off.

London, November 7.—The whole German high seas fleet at Kiel (the German naval base) has been taken over by revolutionaries, said an Exchange Telegraph dispatch from Copenhagen. The greater part of the German naval units at Schleswig has been seized by mutineers, the dispatch added.

London, November 7.—Members of the crew of the battleship Kaiser at Kiel have mutinied and hoisted the red flag. Officers attempting to defend the German flag were overpowered and two of them, including the commander, were killed. A number of officers were wounded, according to the Cologne Gazette. Three companies of infantry were sent from Kiel to restore order. They joined the revolution and a fourth company was disbanded. Tuesday night Hussars sent to Kiel from Wandsbeck were encountered outside of Kiel by soldiers armed with machine guns and forced to turn back.

The Soldiers' Council has decided that all officers must remain at their present posts but must obey the Council, which controls all food supplies. Machine guns are mounted in various parts of the city.

An Amsterdam dispatch to the Exchange Telegraph company, says that two battleships, the Kaiser and the Schleswig-Holstein, were seized by the mutineers and that 20 officers, including two captains, were killed.

It is reported that the garrison at Kiel refused to march to the harbor and that sailors threatened to blow up the battleships if attacked. They are defending the ships, and refuse to return to their duties until a treaty of peace is signed. Admiral Sonthon governor of the port, having asked the mutineers what they wanted, has approved all their demands, including even their refusal to salute officers, it is said.

Artillery is fired in Hamburg Streets. Copenhagen, November 7.—A revolt has broken out in Hamburg, according to a dispatch from the correspondent of the Politiken at Vambrug. Violent artillery firing was in progress in the streets of the city when the correspondent's human departed, the latter declared.

NO RESTING PLACE THIS SIDE THE RHINE

American Army Denial Smashing
Hows to the Demoralized Huns.

Paris, November 7.—Near the Meuse the American army, working in close touch with General Gouraud's forces, is demolishing bit by bit that powerful pillar of the German defense on the western front. The destruction of this German bastion would involve the whole enemy retreat in disaster. There is now no resting place for the German hosts this side of the Rhine. Indeed, it is not too much to say that the Germans are doomed to defeat without hope of recovery.

The Allied troops are giving the exhausted enemy no rest. Deserted by their last remaining ally, the weather—the rain fell in sheets yesterday—the retreat of the Germans verges perilously near a rout. British forces are within a few miles of Manbourg, the fall of which is imminent. The French First is converging on Hilsen.

Vanks Go Through Shell Storm

Washington, November 7.—"The First Army under Lieut. Gen. Liggett has continued its success," General Pershing reported in his statement for Wednesday.

"Crossing the river South of Duns-Sur-Meuse, under a heavy artillery fire, which frequently wrecked the newly-constructed bridges, the troops of Maj. Gen. Hines' corps fought their way up the slopes of the east bank breaking the enemy's strong resistance. They captured 1,111 222, 1,111 260, 1,111 260 and drove him from the Bois de Chastillon.

"During the afternoon our gains in this sector were extended northward. Duns-Sur-Meuse was captured and our line pushed forward a mile beyond that town as far as the village of Millly.

"The troops of Maj. Gen. Summerhall's corps reached the river Cesse and Ligny and mopped up the forest of Ligny. The important road center of Ligny fell before our victorious forces, who pushed on to the Bois de L. Hospital, two miles north of Bois that town, capturing in their advance the village of Letenne.

"At Beaumont we liberated 500 French citizens, who welcomed our soldiers as deliverers.

"The advance of the past two days carried our line to points within five miles of the Sedan-Metz railroad, one of the main lines of communication of the German army.

"Between Beaumont and Bar, Maj. Gen. Dickman's corps, in close liaison with the French Fourth Army on its left, pushed forward under heavy artillery and machine gun fire through the rugged forest areas beyond Stonne. The villages of Yvon, La Besne and Stonne were taken.

"We have taken today west of the Meuse 51 additional guns, making a total of more than 150 since November 1.

MRS. J. E. RUGGLES DIED TODAY

Mrs. J. E. Ruggles, aged about 27, died at her home in the Sixth Ward this afternoon at 1 o'clock, after a month's illness of pneumonia. Mrs. Ruggles was born in Lewis county at Valley, and has been a member of the Methodist Church ever since childhood and was a great help to her husband in his church work. She is survived by her husband, Rev. J. E. Ruggles, former pastor of the Forest Avenue M. E. Church here, now stationed at Somerset, and four children. The funeral will be held Saturday afternoon at 2 o'clock at her old home, Valley, Lewis county leaving here at 9 o'clock Saturday morning, and the burial will be made in the cemetery at Valley Church.

Those desiring to send flowers will please leave them at McVain, Knox & Diener's undertaking parlors before 9 o'clock Saturday morning.

MAYSVILLE BOY LOSES FOOT IN OVERSEAS DUTY

In a letter received this morning by Col. George Diener, the Market street merchant, from the Red Cross authorities in France, he was notified that his son, Mr. Fred Diener, a draftsman from this city, had been wounded in battle on October 15th, and as a result it was found necessary to amputate his right foot. Nothing was said of his condition. It is hoped here that nothing any more serious than what has already happened to this popular Mayville boy will occur and that his physical condition will not be impaired by this great loss.

In the Mason County Court Thursday, Miss Lilly May Pacer was appointed Administratrix of the estate of J. Clayton Pacer, deceased, with W. D. Cochran surety on bond. Messrs. George T. Harbison, W. L. Traxel and Clarence Mathews were appointed to appraise the estate.

SENATE IS IN DOUBT; IS CLIMED BY REPUBLICANS

Three States Still Out On Returns—
Democrats Lose Control
of House.

Washington, November 7.—The House of Representatives is safely Republican, latest returns today showed, but control of the Senate appeared to depend upon the final returns from three states—New Mexico, Idaho and Michigan.

Exclusive of these three states the Republicans appeared to have 47 votes in the Senate to 46 for the Democrats. The Republicans must get two of the doubtful states to win the majority.

On the face of the returns today it would appear the Republicans had landed New Mexico and Michigan by the closest margin, while New Mexico, Democrat, was leading in Idaho.

If this situation is realized finally, the Senate will stand:

REPUBLICANS 49
DEMOCRATS 47

Should the Republicans land only one of three doubtful states, there would be a tie, and Vice President Marshall would hold the balance of power.

With five districts not yet heard from the Republicans appear to have carried the House, with 231 seats, or 15 more than the 216 necessary for a majority.

The Idaho contest has to be decided by official report. Next day only a lead of 300 over his Republican opponent. The Newberry-Ford contest in Michigan, while earlier returns, apparently will not change the early prediction.

Newberry's lead over Ford on the face of latest returns was about 6,000 and slowly increasing, with less than 200 small rural and normally Republican precincts to be heard from. Ford carried Detroit by 25,000.

The increased strength of the Democrats, wherever they made gains, was principally in the east, where war was more clearly understood. In Massachusetts they upset Republican calculations in electing former Governor Walsh over Senator Weeks and also secured a gain of two seats in New York and the probable election of Smith as governor of New York state, together with a reduction of normal Republican pluralities in Illinois and New Jersey.

In other sections the trend to Republicanism gave the Republicans a clean sweep of Nebraska and Indiana and elected all but one of the representatives from Kansas.

It brought about a Republican senator in Missouri, and a gain of five seats in the House in Ohio, Pennsylvania's Republican tendencies have been intensified with a gain of three.

The Pacific coast shows a gain of one seat in Washington, with California and Oregon standing as they are now.

The states which stand out strikingly in the Republican column for the big gains made in the House membership are Ohio, Pennsylvania, Nebraska, Kansas and Indiana.

INFLUENZA WORSE IN COUNTY

Dr. Locke, Health Officer, said today that the situation in this county had grown worse, there having been thirty-five cases of influenza reported to him since yesterday. A meeting of the local physicians was held in this city this afternoon to discuss the lifting of the ban here.

Male and Female Help Wanted at the Modern Laundry. Apply at once

FLU QUARANTINE IS MODIFIED BY BOARD OF HEALTH

Restrictions Imposed By Reason of
Influenza Epidemic Withdrawn
to Some Extent.

Restrictions imposed by the State Board of Health, in session at Louisville by reason of the influenza epidemic were modified yesterday to the extent of permitting church services in Jefferson and Warren counties and the town of Mayfield, Graves county, Sunday. Theaters and schools in Jefferson and Warren counties and in Mayfield may open Monday.

Restrictions in all other counties will be modified, upon application by county health authorities to the State Board of Health, as influenza conditions improve.

Dr. J. N. McCormack, secretary of the State Board of Health, said following a meeting of the board, that the matter of whether saloons and soda fountains may be open after 6:30 o'clock in the evening as formerly, was not touched upon, but the wording of resolutions adopted by the board has been construed to imply that this detail is entirely in charge of the local boards of health.

Regarding the proposed opening of the race meeting at Latonia, Kenton county, Dr. McCormack said that was a matter largely under control of the Kenton county health authorities, as they would first have to make application to the State board, if they desire to permit the meet to be opened, and then, if conditions seem to warrant it, permits will be granted.

United war work meetings will be permitted in Jefferson and Warren counties and in Mayfield beginning tomorrow.

Another meeting of the State Board of Health will be held next Wednesday.

Mr. Elder of Louisville, State Chairman of the Publicity Work for the United War Work, wired District Publicity Chairman Dobbie to the effect that the ban has been lifted in Louisville, Bowling Green and Mayfield and will be lifted at any other point for campaign meetings by obtaining permit from State Board of Health from the local Board of Health. He also expressed his desire for a number of meetings throughout the district, this Sunday.

Fresh Baltimore Oysters received daily.
R. LEE LOVELL, 7-21

OHIO IS DRY 15,000 IS THE LATEST TELEGRAM

Buckeye State Smashes John Barley-
corn a Kneek-Out Blow in the
State Election.

Columbus, Ohio, November 7.—With 154 precincts missing from eight counties of Ohio, the prohibition vote stood this morning:

For	431,682
Against	416,746
Dry Majority	14,936

Columbus, November 7.—On the face of returns available this morning Ohio seems to have elected a dry Republican State Legislature, a Democratic governor publicly uncommitted on the wet-dry issue, Republicans to all other State offices, placed the Buckeye State in the dry column with a 15,000 majority, elected 14 Republicans and 8 Democratic congressmen and has adopted, by a large majority, the referendum amendment initiated by the wet to the State constitution.

The majority for Governor Cox, re-elected, is estimated at from 15,000 to 20,000. The drys claim a majority in both the State senate and house, State Supreme Judge Oscar W. Newman, Democrat, of Portsmouth, it seems, has been defeated by Judge James E. Robinson, Republican, of Marysville. The re-election of State Supreme Judge R. M. Wynnemaker of Akron, Republican, is not disputed.

A dry majority of nearly 15,000 is shown by the unofficial returns on the prohibition amendment vote from 5,602 of the 5,755 precincts in Ohio. This vote was: For, 431,682; against 416,746; dry majority, 14,936.

Unofficial returns from 5,611 precincts give Cox, 472,176; William E. 736; Cox's majority 16,000.

Dry Legislature By Big Majority

Columbus, Ohio, November 7.—The claim that at least 20 of the 22 State senators just elected and 80 of the 126 members of the house are dry, is made by James A. White, manager of the Ohio Dry Federation. While the Legislature this winter is expected to ratify the proposed Federal prohibition amendment, the apparent adoption of the wet referendum proposal will send the Federal amendment to a general vote of the citizens of Ohio.

KENTUCKY CONGRESSMEN WILL LOSE CHAIRMANSHIPS

Republicans Will Take the Place of
Those Now Serving as Com-
mittee Heads.

The Republican victory which takes from the Democrats control of the House of Representatives foreshadows an upheaval in National legislative affairs and changes in power of the Committee Chairmanships. Here's what will happen to the Kentucky members:

The defeat of Swager Sherley loses the chairmanship of the Committee on Appropriations, of course. Ben Johnson will have to give up the chairmanship of the Committee of the District of Columbia, which he has held ever since the Democrats took control of the House in 1911. J. Campbell Cantrell loses the chairmanship of the Committee on Industrial Arts and Exhibitions, while the member from the Eighth district loses the Committee on Census.

Representative William J. Fields, who is now the ranking Democrat on the Military Affairs Committee, will become one of the minority.

These changes will not occur until after March 4 next.

Representative John Langley, because of his high position among the Republican members of those committees, stands a good chance of becoming chairman of either the Committee on Invalid Pensions or the Committee on Public Buildings and Grounds.

STANLEY MAJORITY WILL BE ABOUT 5,000

With Whitley, Wolf, Knox and Leslie counties, all in the Eastern District, to hear from Stanley's majority over Dr. Bremer was 7,123, and it is now claimed that it will be cut down to at least 5,000 when these counties report.

tion amendment, the apparent adoption of the wet referendum proposal will send the Federal amendment to a general vote of the citizens of Ohio.

OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

THE PRICE OF PROSPERITY

Napoleon lost the battle of Waterloo because he ate too much; at least that is the theory of one historian, and it is plausible.

When he was quelling the riots after the French Revolution he is shown as spare of flesh, with a lean, alert face and clear eyes. At the battle of Waterloo he is fat, gross, dull-eyed. He made his last payment to the demands of prosperity when he was fifty-two—death from cancer of the stomach.

Thousands of American men and women pay a similar price for prosperity. From keen, energetic, alert workers they become mentally and physically inactive by their over-indulgence in eating. They die when they should be in the prime of life.

Nor do those who pay the penalties of eating too much come wholly from the class we usually of as "prosperous."

"Generally speaking," exclaimed a well-known food specialist not long ago, "everyone in America who makes more than a bare living eats too much."

The war has made over-eating a two-fold crime today. It means the loss of efficiency when the country needs everyone to measure up to the top peg. It means also the waste of food when every pound of food not utilized is a monument to a lack of patriotism that tries to drag us down in our conduct of the war.

Two things we should remember when we sit down to our dining tables; first, he who eats little will eat most, for he stands a better chance of living longer; second, he who wastes food by over-eating is murdering other people by starving them.

AS WINTER APPROACHES

Here we are at the very portals of winter, even before we realize it. Our attention has been held by the incidents of the war, the epidemic, by considerations of the election by changes which have affected our own daily lives. As a result we have paid little or no heed to the merging of summer into autumn, and even on into the extended arms of winter.

The leaves have been whirling downward on every vagrant breeze, and now they rustle under feet. The branches seem to mourn their departure as do we, who love the first green buds of springs, the changing tints of summer and the brilliant colors of the autumn—now faded, now gone.

The passing autumn has been a wonderful season, rich in comfort and promise in beauty and fulfillment. No melancholy days have we had—instead, all mild and joyous. The hills, the fields, the dells, the gardens, have gladdened the eyes, and they have yielded abundantly.

We shall have reason this year to be thankful for many things. The war is ending. Peace and plenty are smiling from the days just beyond, while nature, tired and content, lies down to sleep, certain of happy resurrection.

FOCH THE BOSS

It must have jarred the President some to observe with what a sigh of relief the people of the country read the announcement that the terms of armistice, if any, would be dictated by Foch. Report says that Clemenceau chose Foch for head of the allied forces. Marshall Foch says that Lloyd George selected him. It does not make much difference to us who did the selecting—we all agree that a good selection was made, and we shall be glad to have him say when the war shall end.

There is going to the Mitteleuropa all right, but it will not be spelled that way, and there are going to be so many people self-determining that at times there may not be enough labor to work the crops.—Houston Post.

PUBLIC SALE!

OF FARM, LIVE STOCK, FARMING IMPLEMENTS AND CROPS.

Having decided to make a change in my present location, I will sell to the highest bidder, on

Friday, Nov. 15

at 10 o'clock the following property, both real and personal, on the premises:

MY HOME FARM, CONTAINING 116 ACRES
More or less, situated five miles east of Flemingsburg on the Mt. Carmel pike. Good house, two good barns, two silos, and all necessary outbuildings. TIRMEEN SWEAR BY MASCOTS TO WARD OFF HARM

London.—In the old days, when men flew on stick-and-string kites (with a silent prayer before each ascent) the practice of carrying mascots began, and the men who fly the perfect machines today are guilty of many quaint superstitions.

One celebrated French "ace" never went up without a large crucifix suspended in front of him, and many a combat pilot whom you would never suspect of such a weakness would not dream of going on the "warpath" without his treasured flying cap, a piece of shell splinter, a scrap of brightly colored cloth from Somebody's dress, or perhaps a dice or playing card of whose virtue he is already assured.

Many men wear a bracelet on one wrist, and there are plenty who swear by a favorite pipe; anything serves, if it is suspected of a potency that will avert the dreaded "crash" and that heart-chilling official announcement—"One of our machines failed to return."

A German airman who was recently brought down stated in the most matter of fact way that his capture was directly due to the fact that, for the first time in his career, he had gone out on a flight without his charm—a piece of coal—in his pocket.

Attached to one of the American aviation camps is a huge black cat, the mascot of the school, who sometimes answers to the name of "Spark-plug." The property of a one armed instructor, he is a universal favorite, though his owner fears that he may go bald from being stroked so much by beginners. He is sometimes mistaken for a Manx cat, as part of his tail was lost through his venturing too close to a whirling propeller!

Airmen take each other's mascots quite seriously and consternation is often caused by the whispered rumor that So-and-So has lost his charm. The whole place will be turned upside down until the thing is found.

It may be the end of a rosary, the spike on which he hung his cap before he made his first trip over the enemy.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."

—Mrs. LIZZIE COURTNEY, 108 5th Ave., West, Oskaloosa, Iowa.
Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Miss Leta Harley, who has been seriously ill with influenza is improving.

Get In Line!

lines, a Uganda Protectorate halfpenny with a hole in the middle, a white mouse, or a bit of jade, but have it be must, or the goddess of Fortune will cease to smile.

'ADDIES STRIKE FOR HIGHER PAY

Boston, Mass.—If the golf caddies of Boston and the surrounding suburban cities and towns have their way it is going to get their clubs carried over the various courses and to have a pair of keen youthful eyes which where the little white spheres go after their drives.

With a view toward an increase from 15 to 20 cents an hour, forty boys who have been employed at the links of the Woodland Golf club in Ansbundale are in strike. These boys comprising the entire caddy body at the links, induced a number of caddies employed by the Brae-Burn Country club West Newton, to strike with them.

The youths now out intend to make an effort to prevail upon all other caddies to follow suit.

"WOODMAN, SPARE THAT TREE" DOESN'T GO NOW

Washington, D. C. — "Woodman, spare that tree," is a forgotten slogan in these days of strife, when any man who can swing an ax is wanted for work in the woods.

New England is clamoring for wood men, the department of labor has announced. From 25,000 to 50,000 men are needed there to get out timber vitally necessary for war purposes. Much of the spruce used in airplane construction comes from Maine forests.

MAKES TESTS FOR CONCRETE SHIPS

In cooperation with the Concrete Ship Department of the Shipping Board, the laboratory of the Bureau of Public Roads of the U. S. Department of Agriculture has made several series of tests in order to obtain desired information looking to the safer design of concrete ships, a part of America's war program.

Miss Leta Harley, who has been seriously ill with influenza is improving.

ARISTRIAN USES BEES TO CHASE POLICE AWAY

Windeor, Ont.—When Provincial Officers Smith and Hannah went to search the home of John Petrynszian, an Austrian, living in the township of Sandwich East, he let loose a swarm of bees, which chased them from his premises. Later in the Ford police court he was found guilty of stealing coal and railway ties from the Essex Terminal railway. Magistrate Miers ordered him to make restitution, which will cost about \$50.

Why not try a Ledger Want Ad?

A POPULAR VERDICT

Based on Evidence of Maysville People.
Grateful thousands tell it—Of weak backs made strong—Of weak kidneys made well—Urinary disorders corrected. Maysville people add their testimony.

They praise Doan's Kidney Pills. Maysville evidence is now complete. Maysville testimony is confirmed; Reports of early relief substantiated.

Merit doubly proved by test of time. Let a Maysville citizen speak. Fred Dresel, tailor and justice of the peace, 1238 East Second Street, says: "I was troubled by inflammation of the bladder and annoyance from my kidneys. The kidney secretions burned in passage and often were retarded. I had severe pains across the small of my back which greatly interfered with my work. Doan's Kidney Pills, which I got at Wood & Son's Drug Store, gave me prompt relief."

Mr. Dresel gave the above statement on February 6, 1908, and on November 14, 1916, he added: "I have had the same faith in Doan's Kidney Pills to-day as ever, for I haven't had any trouble with my kidneys since I last recommended them."

Mr. Dresel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Dresel had—the remedy backed by home testimony. 60c at all stores. LEAVES PULPIT TO ANSWER CALL OF MARMALADE

Boston Pastor Quits Post to Help Son
Make Food Delicacy.

Boston, Mass.—The resignation of the Rev. Dr. Charles H. Moss, D. D., after fifteen years as pastor of the First Baptist church, Malden, brings to light an interesting field of endeavor to which the well known preacher will devote his future efforts.

A business man of unusual capacity, with ten years of active business experience before entering upon his twenty-four years in the ministry, Dr. Moss is to devote the years of his retirement from active preaching to the development of a business in which son Roger has been successfully engaged during the last year—the manufacture of marmalade.

"It is not as unusual or sensational a thing as it sounds," said Dr. Moss, in the office of the clean little plant in which the marmalade is made.

"The questions of bread and butter, the questions of the future welfare of my family, and especially my son, who is engaged in this work, are involved. My health has been such of late years as to unfit me for the heavy duties of so large a pastorate. I have turned to the business side of life again, with the assurance of my physician, as well as the personal conviction, that it will add years to my life."

"I shall retain a pew in my church and shall always preach to some extent, for I love it," continues Dr. Moss, "but it is time for a younger and stronger man to assume the parish load. For several years, ever since I underwent a serious operation, I have been looking to the time when I could lay aside the burdens."

"The line of endeavor into which I should go was a matter of serious contemplation and it was from my wife that the inspiration came."

"When I was engaged with my parishioners in raising the funds with which our parish house was built, my wife assisted materially by the sale of her home made marmalade. So when a serious illness brought an interruption to my son's college course we began experimenting together in the marmalade making on a commercial basis."

"First, in a bedroom of the parsonage, until we spread so that we filled the cellar and the attic and all the hells; and finally in the three stores that I have taken over here, we have been learning that the production and sale of any good food is a paying proposition."

PRISONER TELLS OF HIS CRUELTY IN THEIR CAMP

Lawrence, Mass.—Fred Rosenbloom of this city, a German prisoner since February, 1916, and now interned in Switzerland, writes to his relatives a tale of Germany's cruelty which, he says, is typical of the treatment prisoners get in Germany.

"Early one morning we were all called up," he writes, "and made to stand at a stretching post for two hours without moving an inch. If any one moved he was punished for four days by having to run around the camp for three hours with a thirty pound bag of sand on his back."

"In the afternoon this was done again, he says, and the prisoners' torture was increased by having to wear wooden shoes."

"Five Frenchmen resented the treatment and bayonets were run through their bodies," he says. "One day the men were compelled to stand twelve hours without leaving, and by this time they were too weak to rebel."

"A French corporal, 18 years old, was sleeping with his clothes on, owing to the cold. A German corporal accused him of intending to run away and cut him across the face and left him on the ground to die."

Rosenbloom fought on the French army at Verdun and was taken prisoner in the German drive.

CHANGE MADE IN EDUCATIONAL REQUIREMENTS S. A. T. C.

The War Department has issued instructions defining its policy in regard to the change in educational requirements for admission to the collegiate section, Students Army Training Corps. An effort is being made to keep these units up to authorized strength. Due to the pressing need for officers in all branches of the service, men are continually being transferred to Officers' Training Camps. A new system of recruiting these sections is being worked out, and pending its completion, the War Department directs that institutions where present number of inducted men is less than its authorized quota, may certify for induction such students who do not have the prescribed number of units, but whom the head of the institution and the commanding officer of the unit, jointly, believe to be competent to pursue one of the programs prescribed. Due consideration will be given to such high school training as applicants have had, also to vocational and business experience, to previous military training, and to such personal qualifications as are relevant to the making of an officer. The purpose of the foregoing arrangement is not to abolish educational standards, but to permit such relaxation as is necessary to bring the strength of the corps to its total authorization.

An applicant for admission to the Students Army Training Corps should apply by mail immediately to the educational institution of his choice for detailed information.

PINWHEEL FLYER MAKES 192 LOPS

Dallas, Tex. — Lieut. William T. Campbell attached to Lovelock, established what is believed to be a world record for consecutive loops in an airplane. Flying a Curtiss plane with a special motor, he accomplished 192 consecutive loops without descending.

SOLDIER LETTERS

Somewhere in France, October 2, 1918.
Co. D. 14th M. G. Brl.,
Americana E. F.

Mrs. John Holland.

I will take the greatest of pleasure in answering your kind and welcome letter which I received today and, was more than glad to hear from you and was glad to know you were well and I was proud of your photo and it sure looked natural. Where did you have it taken? This leaves me well and I am getting as fat as a pig. It was awful cold last night. I got awful cold one time last night. Mother have you ever heard from Owen? I never have heard from him. Mother some of these days before long I will be back to you and that will be a great pleasure to me. Mother we have plenty of grapes to eat here and plenty of wine to drink but I don't like the wine, but believe me you ought to see me make the grapes fly. Mother I will have some photos taken and send you one just as soon as I go where I can have them made. Today is a new day, but it looks like rain. Mother tell Aunt Mollie and George hello for me and give them my love and best of regards. I'd get a letter from his mother saying she was well but had not heard from him in three months. He is well and fat. I don't when he wrote to her, but I wrote not long ago for him.

Mother I write you every week. I don't know whether you hear every week from me or not but it takes the mail a long time to come and go for it has a long road to travel. Mother if you don't hear from me when you think you ought to don't be uneasy for I am safe here and write you every chance I get. Mother two more days and I will be over here six months. I don't seem that long to me, doesn't it to you? Mother tell Aunt Mollie and all of them hello for me. Tell Laura I said for her write to me and tell me who she married.

Mother I would like to see you but don't know just when I will get to. Mother I think I will make you a \$10 more allotment for you to keep for me until I get home for I want to have plenty of money to go around and see all of my friends when I come home and I don't want to have to work for it. Well mother I don't know much to write, but Sara and you know how well I love you, so I will close hoping to hear from you soon.

From your son,
EARL HOLLAND.

NO HURTS, HOLTS: BOYS REMAIN AT THE HONOR FARM

Annadale, N. J.—The value of the honor system in handling young prisoners of the state reformatory employed in working the state farms in Hunterdon county has been fully demonstrated, according to Frank Moore superintendent of the institutions, in his annual report to Gov. Edge.

Mr. Moore believes the system, combined with healthful outdoor work, is the best devised for effecting reform among young prisoners. Right from the start the boys employed at the farm have been placed on their honor. He says:

"Living quarters were fixed up for the first of them in a farmhouse, and the first night they were there the officer in charge, E. Smith Hoover, told them he and other officers were going to another farmhouse and would leave them alone, on their honor, for the night. There have been no locks, bars bolts, watchmen, or anything whatsoever that would make the farm any different from any other in the county, and never once has the trust reposed in the prisoners been broken."

WIRELESS SERVICE FOR THREE PHILIPPINE PORTS

Manila, P. I.—Equipment for the installation of three radio plants ordered early in 1917 and delayed on account of war demands is promised soon and it is hoped that in another six months wireless communication between Manila, Cebu, and Iloilo may be established. These new plants will assure continuous service between the three big ports of the islands should the present telegraph and cable lines be interrupted.

HATS DESTROY CASE

Hats every year destroy about 5 per cent. of the growing sugar cane in Jamaica.

CRAWL THROUGH STREETS TO GET WOUNDED YANKS

Philadelphia, Pa.—It seems of a party of eight wounded Yankees from a house around which were many German snipers, is described by D. J. Cain in a letter to John D. Callahan, a Philadelphia boy stationed at Camp Wadsworth.

Cain was one of the party who took part in saving the injured men. Several days afterwards he was gassed, and is now in a base hospital in France.

"We were just about to be relieved after some hard fighting," he writes, "when a lieutenant asked me to take a detail over to a little place where some of our wounded men were hiding. They were unable to get back to us because of hostile snipers. We waited until after dark, making litters out of doors. Then we started crawling through holes we had dug through the houses, because all the streets were covered by Jerry's machine gun snipers."

"One of our lieutenants was stationed at a corner to keep the boche sniper busy. We were to wait until we heard him shoot and then gallop across. Everything worked out all right. We got across two such streets and then through a house by ducking low and running we got into the place where the wounded men were. There were eight, and four could walk. We had hardly gotten in when five shots came smashing through the door."

"After spending some anxious minutes a volunteer was sent back for help, but he could get none, and then we decided to try to get through."

"Ducking low, we started off around corners, through houses, and across streets, and at last we reached the headquarters, only to discover that no one had assisted the wounded that could not walk and they were back there yet. We got them, but not until after doing a lot of Daniel Boone stuff."

WAR SENDS UP ALIMONY ALSO

New York—At last even alimony has become affected by the general upward tendency in the cost of life's necessities and luxuries. Justice Fawcett, in the Supreme court, Brooklyn, took judicial notice of the increase in the cost of living by awarding to Mrs. Cecelle Maria Giness alimony amounting to one-half of the salary earned by Thomas F. Giness, from whom she obtained a separation. Giness receives \$200 a month.

"I'll grant this woman 50 per cent. of her husband's income permanently," Judge Fawcett said. "It may be a high percentage of his salary, but with eggs at \$1 a dozen, butter at 95 cents a pound, and certified milk at 24 cents a quart it will not be too much money with which to clothe and support herself and their child. I rather think it will be barely sufficient. I don't know how people get along at that."

FARM BUREAUS AVERT FIRE LOSSES

Fire damage in California this year is only 40 per cent. of that of previous years, fire underwriters state, due to the work of fire companies instituted by the farm bureaus. To avert a threatened loss of foodstuffs thru fire, the bureaus organized local rural fire companies in 366 farm-bureau centers of the State. Of these, 257 companies purchased automobile trailers, containing fire-fighting equipment for grain and grass fires, and 6,391 farmers enlisted in rural fire companies which covered a territory of 15,012 square miles. The loss in California from grain and grass fires was \$750,000 a year before shortage and pro-Germanism increased the fire risks, and it is probable that at least half a million dollars' worth of foodstuffs has been saved by these rural fire companies.

WOMEN KEEPING HOUSEHOLD ACCOUNTS

In an Oregon county where 710 women enrolled in the classes and clubs organized by the home demonstration agent 233 household account books were placed in creating interest in thrift and home management.

Get Into the Habit of Wearing Good Clothes!

It's a good habit to have. Men who make a practice of buying G O O D clothes—and paying a good price for them—are economical and thrifty. They select the best because they know, in the long run, the best is cheapest.

We recommend
KUPPENHEIMER CLOTHES

because they are economical clothes. Make a habit of buying clothes at this store. You'll be practicing the good-clothes-buying habit—the genuine economy habit.

Maysville's Foremost Clothiers

EVERYONE SHOULD BUY FOR CHRISTMAS NOW

Save Labor and Congestion in Holiday Season is Merchants' Appeal

In answer to a direct request from the Ohio branch of the Council of National Defense, the merchants of Maysville will endeavor to avoid increasing their working force during the coming holiday season.

Christmas announcements are already beginning to appear in the newspapers at the request of the Council of National Defense, and there is to be no "last minute rush" if the Maysville merchants can prevent it.

The merchant who pushes his Christmas goods at this time is but trying to do his part to carry out the wishes of the Government in this important matter. The public should understand this and do its part—make its Christmas purchases now, as otherwise such advertising would appear unseasonable and would not have its desired effect. With both merchants and public alive to their patriotic duty in this matter, Christmas sales should begin to pick up lively. Have you done your Christmas shopping?

RUSSIA GOVERNMENT GOLD IS RECOVERED

New York, November 7.—Russian Government gold value at \$800,000,000 rubles, taken from Petrograd by the Bolsheviks has been saved at Kazan by the Omsk Government, generally recognized as a foundation for the reorganization of Russia, A. J. Sack, director of the Russian Information bureau, announced here last night on authority of the Russian embassy at Washington.

The gold, representing two thirds of the reserve in the Russian treasury when the Bolsheviks gained control of the capital late in 1917, was transported by them to Kazan and thence to Samara. Agents of the Omsk Government, obtaining possession of it took the metal to Omsk.

News of the coup was cabled to Washington by I. M. Michaeloff, secretary of Finance at Omsk. Mr. Sack said. The gold is worth approximately \$400,000,000.

The Omsk Government, according to recent advice from Dussala, is rapidly gaining recognition among the anti-Bolshevik councils as the nucleus for the formation of a conservative Government.

ENDORSEMENT OF THE UNITED WAR WORK CAMPAIGN

Maysville and Mason County People Heartily Indorse This Great Move.

The following endorsements from well-known residents of this city and county to the United War Work Campaign now being urged by the seven great organizations of the world were sent to the Ledger today:

Mr. S. P. Browning, Maysville, Ky.
I most heartily endorse the union of the seven agencies engaged in war welfare service in the great national United War Work Campaign which will, during the week of November 11 to 18, raise \$170,000,000 to defray the expenses of the various organizations so engaged.

The union of the Association in this task is most admirable from every standpoint. There will be an immense saving in time and effort as well as in expense, and I am very certain that every thinking man and woman of Kentucky will not only heartily endorse the plan which has been decided on, but will also feel disposed to contribute even more liberally than if the amount was to be raised by separate campaigns.

What we are striving for is the welfare of the boys on the other side, and the more energy which can be conserved on this side, the more there will be for expenditure on the other, and the greater will be the results for which we are striving.

Mrs. M. Gulanly, Maysville, Ky.

Indeed, so full of good things is this great comprehensive subject, that one must suppress his ideas rather than urge them, fear in lest he may say too much. The one idea which has been uppermost in my mind from the very time that our worthy President, Woodrow Wilson, spoke the word which united these war activities, is the fact that it should never have been otherwise than a united movement. Why should anything that affects the entire American cause in this war be along sectional or denominational lines, when each and every boy, fighting at the front, be he white or black, Jew or Gentile, Catholic or non-Catholic, is fighting for my flag and for the flag of each and every citizen? Each shot that each of our fires is a shot for the nation, and that shot is none the less effective whether it be fired by Jew or Gentile, Catholic or non-Catholic, or a white man or a black man. It will be none the less destructive of life or limb because it is fired by any of these men, all of whom are American citizens. Nothing other than a united effort, showing a united appreciation of the endeavor of each and every one of those boys should ever have been made. And now that we are all united over here, just as over there they are united in one great, common cause, it is an opportunity which each and every citizen should readily and gladly embrace to show to the world our unity in this one great struggle.

Allee Lloyd, Maysville, Ky.

The United War Work Agencies furnishes opportunity for the best paying investment of any of our war activities. It serves the two-fold purpose of supplementing the military agencies in putting the maximum physical, mental and moral health and strength into our defenders while they fight our battle on European fields, and when the war is over of returning them to us to take their places as citizens with higher standards of life—standards that are new to some who have come from surroundings of small opportunity.

As the life is more than meat and the body than raiment, so is morale greater than guns and munitions—it is morale that makes guns effective. When we send our thought, our care, our love every step of the way with the boys, when the big brother goes all the way with them to the very point of contact with the enemy, when the big sister is right there before they go "over the top" and when they come or are brought back to do for them the things their Mothers would have done, they feel that there are values in life worth fighting for, worth the suffering they endure and the sacrifices they make.

It is a joy to give to the Seven United War Work Campaigns that minister to the needs of the body, mind and spirit of our boys by furnishing opportunity for clean, wholesome recreation, mental stimulus and spiritual counsel, speaking to every man in his own spiritual language. In the trying hours, with the familiar symbols and every man whether Protestant or Catholic, Jew or Gentile, receives comfort and intimate counsel from his very own—not forgetting the group that no doubt finds their needs best understood and met by the Salvation Army. We rejoice with exceeding great joy that our negro soldiers are to be provided for by these spirit-sustaining agencies.

W. H. Robb, Maysville, Ky.

As per request of our President and at your solicitation, Mr. Secretary, I wish to say I most heartily approve the movement to secure the funds necessary and requested by the seven organizations. Their work is not only humane and uplifting, but absolutely essential and necessary. Having gone through the war of the 60's can speak from bitter personal experience of the lack of auxiliary attention. Surely if these boys of ours "over there" can so freely and courageously offer their lives on the altar for human rights and liberty as against Autocracy. Surely, surely, we who are left at home in peace and security ought to feel, not only willing, but anxious to give of our means for their comfort, both spiritual and temporal.

The Liberty Loan was extra good investment. This is a patriotic gift to our defenders and lets give it as a high privilege not grudgingly but with a whole heart; as they have offered their lives and be glad of the opportunity to serve our country in this way if in no other.

MASON COUNTY'S BIG MAN DIED TODAY

Major Gullfoyle, Weighing Almost Five Hundred Pounds, Succumbs to Dropsy.

After an illness extending over a period of about one year, Major Gullfoyle died at his home at Maysville this morning of dropsy.

About a year ago Mr. Gullfoyle was the heaviest man in this section of the state, weighing 460 pounds, and his long illness did not reduce his corpulence to any great extent.

He was one of the best natured men one could meet, always ready to take and give a joke, no matter what the subject, and this was the means of winning for him everybody as a friend and all who knew him will be pained to learn of his death. He was just as energetic as he was heavy, and never gave up until his sickness compelled him to, and it can be well said of Major that when he put his hand to the plow he never looked back until the furrow was completed.

He is survived by a widow and five children.

MASON COUNTY FOR CORN

At the store of Scruggs & Harvin, at Flemingsburg Junction, some of the neighboring farmers brought in and hung up for display an ear of corn from their crop which they considered a good one. Then somebody else would bring in another a little better, until Thomas Kabel, who farms on the John T. Shanklin farm, brought in one which has so far distanced all the entries. It is of the Boone county white strain, is 16 1/2 inches long, weighs 1 1/2 pounds and has 1,375 grains on it. If anybody can beat it we should like for them to produce the corn.

GARRY STICKS TO JOH

August Herrmann has been president of the Cincinnati baseball team sixteen years.

Mrs. Charles Flist and daughter, Miss Martha, are improving slowly from a case of influenza.

COLORED NEWS

Mrs. Carrie Berry has returned home after spending the summer with her daughter, Mrs. John Simpson of the Hill City Pike.

It will be remembered that Private George Frank Lee, who is now with the "American Expeditionary Forces" in France, was one of the first four colored men to volunteer their time to go to the army from Maysville. Private Lincoln William and Lewis Comodoro first two, Privates George Frank Lee and William Comodoro second two.

is morale that makes guns effective. When we send our thought, our care, our love every step of the way with the boys, when the big brother goes all the way with them to the very point of contact with the enemy, when the big sister is right there before they go "over the top" and when they come or are brought back to do for them the things their Mothers would have done, they feel that there are values in life worth fighting for, worth the suffering they endure and the sacrifices they make.

LAST NOTICE!

Owners of Liberty Bonds, Do Not Neglect Your Conversion Rights

If you want bonds paying 4 1/4 per cent. interest in exchange for your 4 per cent. Liberty Loan Bonds, you must present your bonds for conversion

Before November 9, 1918

The 4 per cent. Bonds cannot be converted after November 9, 1918, even though bonds at a higher rate of interest be issued thereafter.

Holders of 4 per cent. Bonds lose nothing by conversion and gain 1 1/4 per cent. interest per annum.

Do not wait until the last moment. Act promptly. We offer our services in making the exchange.

LONG IN SERVICE

Mr. George Franklin, Sr., who has been Superintendent of the Flemingsburg Cemetery for the past fifty-one years, has resigned, he now being 87 years old. During the time of his incumbency he has seen hundreds of bodies laid to rest, many of them being his own fellow-townsmen. Mr. Clarence Faulkner will be elected to succeed him. Flemingsburg has one of the prettiest and most kept silent cities in this section, and it is due to the indefatigable service of Superintendent Faulkner.

Fresh Baltimore Oysters received daily.

A Daughter of France

Featuring
VIRGINIA PEARSON

This great picture was shown at the matinee the day the ban was put on by the Health Board, those who saw it pronounced it one of the best war pictures ever brought here.

It tells a story of a brave French girl who fights for France and to save her honor. See the treatment of the French women by the invading huns and the terrific fighting in the front line trenches, the destruction of the French homes.
